

ABSTRACT OF THE DISCLOSURE

5 [0049] A hair care appliance has a body with an outer
layer, and a first end and a second end connected to the
body. The first end and the second end are for grasping
the hair care appliance. The hair care appliance also has
an adhesive layer on the outer layer of the body, and a
10 flocking with a material in/on the adhesive layer. The
material retains heat to assist in styling of the hair.
